 Johannesburg, South Africa

My father was a contractor. It is no wonder then that I devoted myself passionately to the pursuit of relevant sustainable architecture.

The main aim throughout my journey is to provide my clients with solutions to their requirements with an architectural solution that satisfies my pursuit with great emphasis on speed of delivery, cost control, and quality of the product.

I am pleased to report that in my 7 years as a qualified architectural draughtsman. I have managed to in very large part been able to satisfy my credo.
